Medical Director

PPW/MJ/04

January 28, 2003

**Fitovit Capsule** is a multi-ingredient herbal preparation. It contains time tested various herbal ingredients mentioned in the Ayurveda, the traditional Indian medicine. It has been observed that most of the medicines mentioned in Ayurveda are devoid of any side effects.

**Fitovit Capsule** has been in the market in India since June 1993. Since then, it has been used by millions of patients for almost last 10 years and we have not received any adverse event reports from neither from the patients nor from the medical practitioners practicing all over India. Similarly, various clinical trials conducted at our end which are already published in various journals have not reported any adverse events. In these trials more than 2000 patients were studied. The publications are as follows:

1. Indian Journal of Internal Medicine, July-Sept. 1995, Vol 5. No. 10-12.
2. Indian Drugs 32 (7) pg.no. 328-332.
3. Indian Drugs 30 (10) pg.no.498-500

Moreover, **Fitovit Capsule** has been registered and in clinical use in various countries such as Russia & other CIS, Myanmar, Vietnam, Cambodia, Malaysia, Sudan, Zambia, Uganda, Ghana, Tanzania and Thailand. To date, we have not received any adverse event reports from these countries.

Therefore, we conclude hereby that **Fitovit Capsule** do not give rise to any adverse events, minor or major and it is absolutely effective and safe for human consumption.
